

ABIRAMI SHANKARI S

abiramishankari26@gmail.com | +91-90923 17312 | Coimbatore, India | linkedin.com/in/abirami-shankari-s

PROFESSIONAL SUMMARY

Final-year Computer Science Engineering student with hands-on experience in full-stack web development, AI/ML application development, and embedded systems. Author of five technical papers and winner of three national-level hackathons, demonstrating consistent ability to design, build, and ship working software under tight deadlines. Skilled in Python, Java, React, and Generative AI tooling, with proven experience across internships in web development, software testing, and network security. Seeking a full-time applied AI and software engineering roles to apply strong problem-solving, collaboration, and technical execution skills.

EDUCATION

B.E. Computer Science & Engineering, Avinashilingam Institute for Home Science and Higher Education for Women, Coimbatore
CGPA: 8.16 / 10 Expected 2027

Sri P. Mallaiyan Matriculation Higher Secondary School 2023
Class 10: 90% | Class 12: 80.5%

TECHNICAL SKILLS

Programming Languages: Python, Java, Kotlin
Web Development: HTML5, CSS3, React, JavaScript
Backend & Databases: Supabase, MySQL, Database Management Systems (DBMS)
AI / Machine Learning: Artificial Intelligence, Machine Learning, Generative AI, Prompt Engineering, N8N, Ollama, Local LLMs
DevOps & Tools: Git, GitHub, Zoho Catalyst, Hostinger, CI/CD basics
Core Computer Science: Data Structures & Algorithms, Operating Systems, Computer Networks
Data & Other: Data Analysis, Statistics, Data Visualization, IoT (ESP32/Arduino)

PROFESSIONAL EXPERIENCE

Software Development Engineer Intern | Nebula KnowLab(Onsite) May 2026 - July 2026

- Built AI workflows and prototypes using N8N, Ollama, and local LLMs, applying low-code development and prompt engineering to deliver intelligent automation and AI applications.
- Contributed to website redesign, UI/UX enhancements, and technical documentation, and supported development of AI curriculum content for industry-focused learning programs.
- Supported planning and execution of TiE Kovai Con '26 by volunteering in event operations, coordinating technical sessions, and collaborating with industry professionals and startup communities.

Web Development & AI Intern | Thennai Tech Pvt Ltd(Hybrid) Dec 2025 - May 2026

- Built a production full-stack web application using React (Vite) with Supabase as the backend.
- Managed end-to-end hosting and deployment on Zoho Catalyst and configured a custom domain (thennai.in) via Hostinger DNS.
- Implemented Vite base-path optimization and a build pipeline for seamless cloud deployment.

Software Testing Intern | Skypark iTech(Onsite) May 2025

- Studied the complete Software Testing Life Cycle (STLC) and various software testing methodologies.
- Gained practical exposure to automation testing using Selenium with Python.

Web Development Intern | Innovate Intern(Remote) Dec 2024 - Jan 2025

- Developed a conference management system using HTML, CSS, and JavaScript.
- Implemented the core structure and UI/UX of a functional web application.

Network & Security Intern | Prompt Infotech(Remote) Aug 2024 - Oct 2024

- Gained hands-on experience with network configuration, administration, and security protocols.
- Applied Linux fundamentals in a network security context.

PROJECTS

PrepTalk - AI-Powered Interview Preparation Platform

- Designed and developed an end-to-end AI platform that personalizes interview preparation through resume analysis, LLM-generated mock interviews, and AI-driven performance feedback using Python and prompt engineering.

GreenOps - Sustainable Code Analyser

- Built a Python static-analysis tool that calculates green scores, energy estimates, CO2 output, and code diagnostics, paired with a React/Tailwind dashboard with animated score displays. Hackathon Winner.

Agro-Cart - AI + IoT + Solar Crop Management

- Developed a smart agricultural cart integrating AI, IoT sensors, and solar power for real-time crop monitoring; published internationally and won the WitzGreen Agri-Hackathon.

Federated Learning + RL for Sustainable Data Centres

- Conducted a research project applying federated learning, reinforcement learning, and quantum computing to optimize data centre energy use; presented at NCAIQBIT-26 (Best Paper).

Pagir - Feed Lives

- Built a community-based web application to reduce food wastage and improve circular economy outcomes, using N8N for AI automation and Antigravity for development.

ACHIEVEMENTS & AWARDS

- 1st Place, Hack-o-Hertz 36-Hour National Hackathon, New Prince Shri Bhavani College (Project: GreenOps)
- 1st Place, TinkHerHack World's Largest Women-Only Hackathon, Kerala (Project: Green Guard)
- 1st Place, WitzGreen Agri-Hackathon, SNS College of Technology (Project: Agro-Cart)
- Best Paper Award, NCAIQBIT-26 National Conference, Karpagam Academy of Higher Education
- Top 30 Finalist, 36-Hour National Hackathon, Karpagam Academy (Project: Kural AI - Voice-First Tamil Platform)
- Finalist, 'One Day Collector' by Shankar IAS Academy & Coimbatore Corporation (Swachh Bharat pitch)
- Best Vibe Coder, Startnetvibe event, TN Startup Summit
- Sustainability Poster Presentation Winner, Avinashilingam Institute
- Young Tech Excellence Award, Arya Vysya Excellence in Youth for Achievements in the Field of Tech

PUBLICATIONS & RESEARCH

- "A Systematic Review on E-Waste and the Need for Green Electronics in a Sustainable Future" - National Conference
- "The Future Sustainable Agro-Cart: Integrating AI, IoT, and Solar for Crop Management" - International Conference
- Research on Federated Learning, Reinforcement Learning, and Quantum Computing for Data Centre Intelligence - NCAIQBIT-26 (Best Paper)
- "An Integrated Approach Using Federated Learning, Reinforcement Learning, and Quantum Computing for Sustainable Data Centers" - International Conference
- "Neuromorphic Computing-Enabled Autonomous Agents for Energy Efficient Real-Time Disaster Response and Recovery" - International Conference (ICETCS 2K25)
- "PrepTalk: An AI-Powered Interview Preparation Platform for College Students" - IJSREM Journal Publication

CERTIFICATIONS & COURSEWORK

- Oracle Certified Cloud & AI Foundation Associate - Oracle
- McKinsey Forward Program - Soft Skills & Aptitude
- Generative AI & Prompt Engineering (Ongoing, Jan 2025 - Present)

LEADERSHIP & COMMUNITY

- Core Team Member & Advisory Board, Build Club ITEL (IIT Research Park & Avinuty), 2024-2027
- Best Student Representative (School of Engineering), National Service Scheme (NSS), 2023-2027
- Eco Club & U-75 Chairperson, Avinashilingam Institute School of Engineering, 2025-2027
- Member, Women Developers Society Coimbatore & Google Developer Group Coimbatore (DevFest 2025 Volunteer)
- General Body Member, Aalam Foundation
- Co-founder & Core Team Member, Coimbatore Experience (CX) & CBE DEVS
